

Y6: So now it's time to take,
The next big step on life's great journey.
Who knows what lies in store,
Along that long and winding highway.
But you have taught us well,
To help us choose the only right way.
It's time to travel on and do it our way.

At times, times such as this,
It's only right for us to mention.
How much you've meant to us,
You set us off in the right direction.
Together, side by side,
As we marched on to this goodbye day.
We're proud to shout out loud
'We did it our way!'

+CHOIR Yes, there were times when it was tough,
When work was hard and fights were rough.
But through it all we knew deep down,
Through fun and tears, through smiles and frowns.
We had good friends and that's what counts!
And we did it our way!

Y6 (+OOH): Goodbyes can hurt so much,
They're bitter sweet 'try not to cry' days.
But this comes from the heart,
So let's not say it in a shy way.
We give our thanks to you,
Please wish us well as we go our way,
On this - this our goodbye day.
